I find this highly inconvenient. I'm living on my own, One apartment bedroom, & I don't pay for it, my school does. I can't get a job, because I don't have a social security number even though I been in the U.S.A for 17 years. I'm 18, still in high school, I have no family in this city, I am planning on graduating & changing the internet in that manner will ~~ruin~~ ruin my chances. I use the internet for school purposes. & if this occurs, It will ruin my graduation goals. I can't even buy tobacco & I'm 18 of age Because I can't get an I.D. The internet should be passed down to us equally as a human right. It's bad enough I feel alienated by this ~~society~~ society, don't make it worse
